

RESERVE

By Nourison

The **Reserve by Nourison** collection transcends traditional floor coverings, offering handwoven masterpieces that blend heritage, artistry, and modern sophistication. Crafted with unwavering precision, each rug tells a story—of skilled artisans, time-honored techniques, and a passion for creating pieces that are as timeless as they are luxurious.

From the richness of texture to the harmony of color and design, these rugs embody the essence of artistry and refinement

Discover the Reserve collection and experience how a single rug can elevate your home.

SIZING TIPS

HOW TO CHOOSE THE RIGHT RUG SIZE

Providing measurements of the room and furniture ensures you get the right rug for the space

LIVING ROOM TIP

Make sure your rug is sized properly for the furniture and seating area. The rug should pull each piece together into a single area.

DINING ROOM TIP

Leave 18-24 inches of rug on all sides, so that chairs stay on the rug when pulled back. Rug should be sized to fit the room, not the table.

BEDROOM TIP

Leave at least 18 inches of rug on either side of the bed. You should be able to get out of bed and still stand on the rug.

LIVING ROOM

BEDROOM

ALANNA

COLLECTION

NOURISON.COM/ALANNA

The Alanna Collection of area rugs brings home the best of two worlds: the cozy look of jute and the durability of wool. These handmade, jute-inspired rugs are woven in a chunky loop style with a wonderfully nubby texture. Choose from four versatile colorways that are great for layering or as the finishing touch in your living room or bedroom.

CHRISTOPHER GUY

From the beginning, Nourison has built its reputation on creating beautiful, handcrafted rugs from the finest materials, and has partnered with numerous designers through the years who share that passion. Translating Christopher Guy's timelessly elegant designs into area rugs fits perfectly into that vision. In the Christopher Guy collection, his reputation for clean designs with an artistic flair shines through in each of these contemporary rugs, ranging from abstracts to floral and geometric patterns to simple, classic pieces that focus attention on beautifully textured natural materials.

CUSTOM RUGS

Nourison offers a variety of custom services for area rugs and broadloom carpet. Our talented design team will work with you to create a unique rug, or you can choose from our extensive library of colors and textures. Nourison can weave your rug from 100% wool, silk, or a combination of both. Various construction techniques are available, including hand knotted and loom woven. Available rug dimensions range from small runners and rounds to oversized mansion rugs, ensuring your dream rug will fit your space perfectly.

RUG INFORMATION

TYPES OF RUGS

HAND KNOTTED

Hand knotting is the most labor-intensive of rug constructions. In the hands of master weavers, this technique can produce works of art unparalleled in detail and beauty. In a knotted rug, tiny threads are tied onto the warp, creating the pattern or design. The weft threads anchor and align the rows of knots. When the knots are later cut, they stand away from the warp/weft backing to create the velvety pile of the finished piece. The density of the pile is determined by how tightly the knots are packed together. There are a variety of actual knot styles, among which are Persian, Turkish, and Tibetan knots.

In Tibet, native weavers developed a distinctive method long ago of weaving on a vertical loom. A Tibetan knot is made when a metal rod is inserted into to the cotton foundation (warp and weft threads) during the knotting process. The two warp threads are at different positions around the weaving rod, and the threads are knotted form left to right.

When the row of knotting is completed, the knots are cut off the metal rod. This creates a surface texture in the pile with the signature horizontal striations that identify “Tibetan weave” to connoisseurs all world over. The most common Tibetan knotted rugs are in 60, 80, or 100 knots per square inch. The higher the knot count, the thinner the carpet. This type of weaving is indicative of tribal and modern designs.

HAND TUFTED

Hand-tufted rugs and hand-hooked rugs are produced with a tufting gun. Working much like an oversized sewing needle, the gun pushes and pulls threads of yarn through a scrim — a pre-woven grid foundation. With a hooked rug, the loops of yarn are left intact to form a characteristically “knobby” pile. In a tufted rug, the tops of loops are sheared to expose the thread ends for a softer and plusher pile.

HAND WOVEN

A hand woven, or flat-weave rug, is constructed without a pile. Here, colored weft yarns are woven through the warps to create the pattern. There are numerous varieties of flat weaves: kilims, dhurries, and soumaks, to name a few.

A split-weave kilim is constructed when colored weft yarns are woven through the warps to create the pattern and the thread is pulled through the warp only as far as the pattern and color dictate. Then the thread is turned back on itself to go the direction in which it came, finishing the same side on which it started. Different colored threads meet but do not join, creating the design.

Nourison’s patented Nourmak technique uses a warp wrapping process, in which a weft thread is drawn over two to four warps, then back under half of them, repeatedly. The technique produces a herringbone-like effect across the back of the rug. The face of the rug is knotted to replicate a worn, antique Persian rug where there is no pile. These rugs also have a hidden weft inserted after every other row.

LOOM WOVEN

Nourison’s loom woven rugs are made on state-of-the-art looms, which have been customized to weave exceptional quality products with a feel and suppleness that rivals handmade rugs. These loom woven pieces are then hand washed and hand finished, utilizing time-honored techniques, to accentuate the beauty of each individual rug. Loom woven rugs from Nourison have the texture, look, and feel of a high-quality handmade piece without the high cost normally associated with handmade rugs.

POWER LOOM

Early power looms enabled rug makers to produce floor coverings at a much faster rate than anything woven by hand. Though these early machine made rugs were by no means as detailed as those done by an artisan’s hands, they brought affordability and accessibility to a much larger market. Since the initial development of the power loom, manufacturers have strived to re-create the look of a fine handmade carpet with varying degrees of success. When purchasing a power-loomed rug, remember, it’s not just about price!

Most important is that your rug is constructed of quality materials, like wool, natural fibers, or lasting synthetics dense enough to ensure—not only that the product lasts—but that it wears beautifully. Hand finishing or carving, featured in many Nourison power-loomed rugs, are sure signs of quality. A finely power-loomed rug is superior in detail and durability to one that is poorly handmade. Nourison’s power-loomed rugs are woven on state-of-the-art Wilton looms, known for their ability to produce incredibly intricate designs and superiorly blended colors. These electronically-driven looms also produce two rugs simultaneously, which are then cut apart, known as face-to-face weaving.

FIBER CONTENT EXPLAINED

TYPES OF RUGS

ACRYLIC

Synthetic fiber with soft texture and excellent color retention.

BAMBOO-EXTRUDED SILK-LIKE FIBERS

Fibers created by processing bamboo into a soft, silky thread similar to rayon, with antibacterial qualities as well as excellent strength and color retention.

COTTON

Natural fibers created from cotton plants, featuring soft texture and used to create strong threads with excellent color retention.

JUTE

Soft, shiny vegetable fiber spun into coarse threads.

LEATHER

Tanned animal hide, typically cowhide.

LUREX

Synthetic yarn with a metallic appearance.

LUXCELLE™

A proprietary viscose fiber made from cellulose and purified cotton. Nourison developed the fiber specifically for use as a carpet yarn with superior strength, a fabulous silk-like sheen, and excellent color retention.

NEW ZEALAND WOOL

Generally considered the top quality of wool.

POLYACRYLIC

Synthetic, strong plastic-like fiber.

POLYESTER

Synthetic fiber with excellent durability and color retention.

POLYPROPYLENE

Synthetic, wool like appearance, very strong, excellent color retention.

RAYON

Synthetic fiber with a silk-like feel and excellent color retention.

SILK

Protein fiber, shimmering, strong, soft to the touch.

SISAL

Fiber created using sisal plant, often used in ropes as well as woven rugs and mats.

VISCOSE

Synthetic rayon-like fiber with a structure similar to cotton, created by treating cellulose extracted from plants such as soy, bamboo, and sugar cane.

WOOL

Natural hair harvested from the coats of sheep or goats through shearing. Coarse texture with excellent durability and color retention.

CLEANING & CARE

BY STAIN, FIBER & BLENDS

NOURISON.COM/RUG-CARE

FIBER	SUGGESTED CLEANING AND CARE
NEW ZEALAND WOOL WOOL RAYON COTTON NYLON FAUX SILK ACRYLIC POLYACRYLIC MODACRYLIC POLYESTER POLYPROPYLENE SHAG	- Vacuum regularly. - Pile shedding is a normal characteristic of quality area rugs. - Avoid use of beater-bar type vacuums as they may cause yarns to pull or snag. - If this happens, avoid pulling yarn knots out of surface pile. - Clean spills immediately by blotting with a clean sponge or cloth. - Always use a professional cleaning service. Consumer self-cleaning methods are discouraged. - Rug padding is recommended.
HAIR ON HIDE LEATHER COWHIDE SUEDE LEATHER	- Natural skin rugs are not recommended for high-traffic areas. - Vacuum regularly on the lowest setting. Vacuums with beater bars are not recommended. - Clean spills immediately by wiping smoothly in the direction of the hair with a damp (but not wet) cloth, using mild soap and water. - Always use a professional cleaning service. Consumer self-cleaning methods are discouraged. - Rug Padding is recommended.
JUTE SISAL	- Do not steam clean or wet shampoo your jute rug. Plant fibers are highly absorbent, so they are subject to some shrinking and puckering when exposed to liquids or excessive dampness. - Always use a professional cleaning service. - Consumer self-cleaning methods are discouraged. - Rug padding is recommended.
VISCOSE LUXCELLE™ BAMBOO-EXTRUDED SILK-LIKE FIBERS	- Vacuum regularly. Vacuums with beater bars are not recommended. - Avoid pulling yarn knots out of surface pile. - Always use a professional cleaning service. Consumer self-cleaning methods are discouraged. Carpet can easily stain and yellow with improper cleaning. - For spills, blot the affected area with white paper towels or a clean white terry cloth towel. Moisture will weaken the fiber, and rubbing could then cause breaking or damage. - After blotting stains, groom by combing the face of the rug in the direction of the pile with a soft brush. The pile may look flatter and more reflective afterward. - Once dry, re-brush the fiber to regain original texture. - Rug padding is recommended.

*If recommended procedure is not effective, call a reputable cleaner, particularly for complex stains. Don’t wait for annual cleaning, since it may be too late by then to remove the stain.

STYLE INFORMATION

TRADITIONAL

Traditional designs are modern-day representations of time-honored European and Asian patterns. In some cases, a traditional rug’s design may be a pattern that has been used for generations.

Traditional rugs are normally considered formal, but they can also be used in casual living spaces.

Traditional rugs normally contain specific elements like floral and other intricate patterns, borders and central medallions.

TRANSITIONAL

This style is a blending of traditional and contemporary styles. Quite often, the blend provides the elegance and timelessness of a traditional pattern with a little less formality.

For example, a transitional rug may feature a classic floral pattern but not a border, or, the rug’s design may feature a border and an intricate pattern but with little color contrast between the two elements.

CONTEMPORARY

Contemporary rug designs are generally characterized by stark contrasts, bold uses of color, and geometric or free-form style elements. They are normally architectural and modern in their look. Contemporary rugs can also feature retro patterns.

Typically these designs are inspired by art deco and arts and crafts periods.

RUG PAD

10 YEAR GUARANTEE

GUARANTEED TO RETAIN ITS NON-SLIP PROPERTIES
WITH PROPER CARE

FOR SAFETY

Rug pads hold rugs in place. A rug pad can help prevent bunching and rug shift, which can cause slip and trip hazards. Even when a rug seems “secured” by furniture or on carpet, a rug pad adds an extra layer of protections against mishaps.

FOR DURABILITY

Rug pads protect the rug’s weave, which can be worn by the constant pulling and tugging of foot traffic and vacuuming. A rug pad extends the life of the rug, and protects your investment.

FOR COMFORT & AESTHETICS

Rug pads provide extra padding, increasing comfort, insulation, and sound proofing in the home. A rug pad also provides a buffer zone for dirt and dust, keeping them off of your hard surfaces, and making them easier to vacuum away.

IT IS IMPORTANT TO CHOOSE THE RIGHT TYPE OF RUG PAD FOR YOUR FLOORING

Hard surface rug pads can be used on hardwood, stone, tile or vinyl.

SHIFT LOC

FEATURES

- Classic cushioning extending rug’s life & provides sound-proofing.
- Hand washable & easily cut to size.
- For use with hard surface flooring. Will not stain or discolor your floors.

AVAILABLE SIZES
